Blue Shield HMO Physician and Hospital Directory

County of Fresno

value. quality. the providers you trust.

October 2007
How to Use this Directory

Welcome to Blue Shield of California. The following pages list the HMO network physicians and hospitals in your service area. For easy reference, this directory is formatted in the following way:

Independent Practice Associations (IPAs) and Medical Groups are listed alphabetically by name within their geographic cluster. Following the IPA/Medical Group name, address and phone number are the:

- Hospitals associated with each IPA/Medical Group.
- Personal Physicians associated with each IPA/Medical Group listed by city, specialty and name in alphabetical order.
- Obstetricians/Gynecologists (OB/GYNs) associated with each IPA/Medical Group listed by city and name in alphabetical order. The names of OB/GYNs authorized to serve as Personal Physicians are also in the Personal Physicians listings.
- Specialists associated with each IPA/Medical Group, listed by city, specialty and name in alphabetical order.

Hospitals are listed alphabetically by name within the county where they are located.

General Index contains an alphabetical listing by last name of Personal Physicians and Specialists.

IPA/Medical Group Index by City contains an alphabetical listing by city containing all IPA/Medical Groups within that city.

Definitions:

- Medical Group: An organization of physicians who are generally located in the same facility and provide a range of health care services to health plan members.
- Independent Practice Association (IPA): A group of physicians with individual offices who form an organization in order to contract, manage and share financial responsibilities for providing health care services to health plan members.
Making quality and patient experience part of the equation

We have made quality and patient experience measures available in the directory for your information.

We use patient experience and quality data compiled by two leading independent performance initiatives: the Patients’ Evaluation of Performance in California (PEP-C) survey, which focuses on patient satisfaction, and the Leapfrog Group survey, which focuses on hospital safety processes.

The Leapfrog Group is a not-for-profit coalition of more than 170 public and private organizations that provide healthcare benefits to over 34 million people. Leapfrog was created to improve patient safety. The Leapfrog Hospital Quality and Safety survey is a voluntary program in which hospitals report on the safety programs they have implemented.

The Patients’ Evaluation of Performance in California (PEP-C) is a collaborative effort to gather information about patient experience and satisfaction at California hospitals.

Because quality and cost are very important to our members, our hospital directory features quality and cost information based on these programs.

When you look at a hospital’s listing in this directory, you’ll be able to see whether that facility participates in the PEP-C (P) and Leapfrog (L) programs. You’ll also see codes that can help you determine the hospital’s relative cost.

Please note that the cost of a hospital’s care does not necessarily determine its quality of care. We determine a hospital’s relative cost by comparing patient care costs for certain illnesses and procedures at all network hospitals in that geographic area.

The number of dollar signs associated with a hospital indicates how expensive that hospital is, in general, compared with other similar hospitals in the network. One dollar sign ($) indicates the lowest cost, and four dollar signs ($$$) indicate the highest cost.

$ --- Lowest cost hospital
$$ --- Lower cost hospital
$$$_$ --- Higher cost hospital
$$$$ --- Highest cost hospital

You might want to discuss this information with your doctor when making decisions about hospital care.

We will continue to work closely with hospitals on these quality and patient experience measures to provide you with valuable information and enable you to make informed decisions about your care. For more information, check the Find a Provider section of blueshieldca.com.

If you have any questions about one of our network hospitals you may call Member Services at (800) 424-6521.

Your Personal Physician

When enrolling in Access+ HMO or Blue Shield Point of Service (POS), you and each covered family member must choose a Personal Physician from this directory. Your Personal Physician will provide or coordinate all of your medical care. To ensure access to services, each member must select a Personal Physician who is located sufficiently close to the member's home or work address to ensure reasonable access to care, as determined by Blue Shield. If you do not select a current Personal Physician at the time of enrollment, Blue Shield will designate a Personal Physician for you and you will be notified. This designation will remain in effect until you notify Blue Shield of your selection of a different Personal Physician.
If you or your eligible family members are already a patient of any of the Personal Physicians listed in this directory and have seen the physician within the last year, you may still be able to select that doctor as your Personal Physician even if he or she is not accepting new patients. Be sure to call the doctor's office first to make sure that you are listed as a current patient before you choose that doctor as your Personal Physician.

**Specialty Care**

Blue Shield encourages you to develop a close relationship with your Personal Physician by discussing your medical condition or concerns with your doctor. If your Personal Physician cannot treat you or feels that a second opinion or specialist care is appropriate, he or she may submit a request (also called a referral) to his or her IPA/Medical Group recommending that you be sent to a specialist or a different Personal Physician.

If the referral is approved, you will usually be sent to a specialist or another doctor in your Personal Physician's IPA/Medical Group, and you will be charged your standard office visit copayment. If the type of specialist you need is not available within your Personal Physician's IPA/Medical Group, you may be referred to an outside specialist. Depending on the urgency of your condition, the time it takes to get an appointment with a specialist may vary. Your Personal Physician can give you an estimate of how long it will take to get an appointment and the specialist's phone number and address.

If your Personal Physician feels that a referral is not appropriate for your medical condition, he or she will discuss other treatment options with you.

**Access+ HMO Members have Access+ Specialist Options**

If you are an Access+ Member, you may use the Access+ Specialist option to go directly to any specialist in the same IPA/Medical Group as your Personal Physician without a referral. Check your Access+ HMO member materials for complete details about the Access+ Specialist option. This option is not available to Blue Shield POS Plan members.

To use the Access+ Specialist option, your Personal Physician must belong to an IPA/Medical Group that is an Access+ Provider Group that offers the Access+ Specialist option. In this directory, Access+ Provider Groups have an (A+) next to their name.

IPA/Medical Groups that are not Access+ Provider Groups do not offer the Access+ Specialist option. Please note that a change of Personal Physician may be necessary for you to take advantage of the Access+ Specialist option.

**Annual Gynecological Exams**

Women can make an appointment for an annual gynecological exam with an OB/GYN in their Personal Physician's IPA/Medical Group without a referral from their Personal Physician at no charge. An Annual Well-Woman Exam usually includes an office visit, breast and pelvic exams, a Pap test and urinalysis. The nature of the exam, however, will vary according to each woman's age and her family and medical history. If any follow-up care is required, a member should contact her Personal Physician.

**HMO Hospitals**

Except for emergency services, all inpatient hospital care must be authorized in advance by your Personal Physician and the Blue Shield Access+ HMO or POS Plan.

**Subacute Care Facilities**

If you would like a listing of contracting subacute care facilities, please call your Blue Shield Member Services department.
Remember to Call First

Always call your Personal Physician before you seek medical care. Except for emergency services, Access+ Specialist option, and annual gynecological exams, Blue Shield will not cover your medical care unless it is provided or coordinated by your Personal Physician. For coverage of urgent care, please read your Evidence of Coverage booklet. A true emergency situation requires immediate medical attention at the nearest medical facility to prevent death or disability due to a sudden trauma or illness, such as a stroke or broken leg. For a complete description of coverage for emergency services, please read your Evidence of Coverage booklet.

Specialty Designation

Among all physicians listed in this directory, only those who have been certified by a recognized medical specialty board will be identified as "Board Certified." This applies to Personal Physicians, Specialists and OB/GYNs.

Physicians listed in specialty classifications other than "General Practice" include only the following:

• those who have been specifically trained in the specialty indicated (physicians generally termed to be "board eligible"), and

• those whom Blue Shield has verified before the time this directory was printed as having received board certification in the particular specialty or subspecialty for which they are listed.

Physicians who are neither board certified nor board eligible will be listed in this directory under the classification "General Practice."

Family Planning Services

Some hospitals and other providers do not provide one or more of the following services that may be covered under your plan contract and that you or your family member might need: family planning; contraceptive services, including emergency contraception; sterilization, including tubal ligation at the time of labor and delivery; infertility treatments; or abortion. You should obtain more information before you enroll. Call your prospective doctor, medical group, independent practice association, or clinic, or call Member Services at (800) 424-6521 to ensure that you can obtain the health care services that you need.
Choosing a Personal Physician

You can choose a Personal Physician from the four types of doctors listed below:

**Family/General Practitioners** Doctors who treat children and adult men and women

**Internal Medicine** Doctors who treat adult men and women over age 18

**Obstetrics/Gynecology** Doctors who treat adult women and teenage girls

**Pediatrics** Doctors who treat boys and girls up to age 18

Follow These Simple Steps

1. Look for the county you live or work in the IPA/Medical Group Section of this directory. If you know the name of the Personal Physician you would like to select, you can refer to the General Index Section of this directory. Personal Physicians are listed alphabetically by last name.

2. Choose the doctor you want as your Personal Physician. If you are interested in a particular specialist or OB/GYN, make sure he or she is in the same IPA/Medical Group as the Personal Physician you select. You will need an authorized referral from your Personal Physician's IPA/Medical Group before you can be treated by a specialist, except when you need an annual gynecological exam.

3. If you are an Access+ HMO member and want to be able to use the Access+ Specialist option, you must choose a Personal Physician who belongs to an IPA/Medical Group that is an Access+ Provider Group. Access+ Provider Groups have an (A+) next to their name. IPA/Medical Groups that are not Access+ Provider Groups do not offer the Access+ Specialist option. If needed, Access+ HMO members may change Personal Physicians at any time to take advantage of the Access+ Specialist option.

4. Call the office of the Personal Physician you have selected to make sure that he or she is accepting new patients and for answers to any questions you may have about the doctor (e.g., office hours, availability evenings and/or weekends and educational background).

5. Fill out the Blue Shield enrollment application and submit it to your Personnel Department or Benefits Administrator. For an individual plan, return the application to your Blue Shield agent or to Blue Shield's Membership Department. Make sure to indicate the name and provider number of the Personal Physician and IPA/Medical Group you select for you and each eligible family member.

If you need help choosing a Personal Physician, please call Blue Shield Member Services, Monday through Friday, 8:00 a.m. to 5:00 p.m., toll-free at (800) 424-6521.

Changing Your Current Personal Physician

You should also refer to this directory when you want to change Personal Physicians. You may change Personal Physicians at any time for any reason. Just call Blue Shield Member Services at (800) 424-6521. The change will be effective the first day of the month following notice of approval by Blue Shield. To receive the best quality of care and to avoid any gaps in your treatment, we recommend that you do not change your Personal Physician during a course of treatment or while you are pregnant or hospitalized. If your Personal Physician retires, leaves or is dropped from the HMO Network, we will notify you in writing and give you the opportunity to choose a new Personal Physician.

Availability of providers is subject to change. Please call member services at the number listed on your Blue Shield ID card for the most up-to-date provider information.

-effects on the heart.

Angina is another symptom of cardiovascular disease, characterized by chest pain or discomfort that often occurs during physical activity or stress. Angina can be caused by a narrowing of the coronary arteries, which supply blood to the heart muscle.

Efforts to improve care include implementation of guidelines and protocols to ensure consistent and effective treatment for cardiovascular disease patients. Ongoing research and innovation in cardiovascular medicine continue to provide new tools and strategies for managing this complex condition.

-effect of removing or reducing the fat from the diet. Exercise and lifestyle modifications also play a role in managing cardiovascular disease, emphasizing the importance of a heart-healthy lifestyle.

Additional resources provide support to patients and their families, and professional and educational opportunities exist for medical professionals focused on this condition.

Other treatments include medication, which can help manage symptoms, lower risk factors, and stabilize or improve heart function. Genetic counseling and testing are also becoming more prevalent in the management of cardiovascular disease.
