**Board of Retirement** 

FROM:

Becky Van Wyk

Interim Retirement Administrator

SUBJECT: Budget Status for the Quarter ended June 30, 2014

The attached report (Exhibit A) represents the Retirement Association's Fiscal Year 2013-14 administrative budget, on a cash basis at June 30, 2014. The total expenditures reported as of June 30, 2014, including encumbrances, were 90% of the adopted budget. Please note that this percentage does not agree to the estimated expenditures included in the budget presentation due to estimates used for the budget presentation and that FCERA has historically encumbered all available balances (excluding salaries and benefits) at year end to ensure adequate funding for unexpected invoices. The budget presentation estimated expenditures at 84.92% of the adopted budget.

Appropriations used for Salaries and Benefits were 91% of the adopted 2013-14 budget. The budget anticipated expenditures at 96.28%. Salaries were 91% and were lower as a result of vacancies in the Retirement Coordinator, Account Clerk, and Office Assistant positions in the first quarter of the year and the Retirement Administrator vacancy in the fourth quarter. Temporary workers were utilized to assist with the workload and additional work associated with implementing a replacement pension administration system and changes in the new benefit structure which resulted in extra help expended appropriations of 156%.

Expenditures for Services and Supplies were 89%, including encumbrances, rather than the expected 100.00%. The primary contributing factor to the lower than expected percentage was that the fourth quarter billings were not received by the end of the accounting period. Expenditures for Board and Staff Travel at 56% and 57%, respectively, were less than anticipated when the budget was prepared.

Expenditures exceeding the expected 100% were Postage at 165% and Liability Insurance at 111%. The increase in postage expenditures was due to an unexpected postal rate increase and mailings associated with a retiree election. The primary fiduciary insurance policy

renewed with an increase and the renewal period was extended to cover thirteen months rather than the customary twelve months.

Appropriations used for furniture within the Fixed Asset category were 39%.

With the exception of Salaries and Benefits, all remaining appropriations were encumbered to pay for the outstanding invoices and work in process.

As requested by your Board previously, I have included additional information on the amounts paid to the investment managers and other investment related professionals (Exhibit B) and expenditures for maintenance of the Administrative Building (Exhibit C). Also included is a report on the excluded costs for information technology related projects.
