

Fresno County Employees' Retirement Association

Governmental Accounting Standards (GAS) 68

**Actuarial Valuation Based on June 30, 2014
Measurement Date for Employer Reporting
as of June 30, 2015**

This report has been prepared at the request of the Board of Retirement to assist the sponsors of the Fund in preparing their financial report for their liabilities associated with the FCERA pension plan. This valuation report may not otherwise be copied or reproduced in any form without the consent of the Board of Retirement and may only be provided to other parties in its entirety. The measurements shown in this actuarial valuation may not be applicable for other purposes.

*Board of Retirement
Fresno County Employees' Retirement Association
1111 "H" Street
Fresno, CA 93721*

Dear Board Members:

We are pleased to submit this Governmental Accounting Standards (GAS) 68 Actuarial Valuation based on June 30, 2014 measurement date for employer reporting as of June 30, 2015. It contains various information that will need to be disclosed in order for FCERA employers to comply with GAS 68.

This report was prepared in accordance with generally accepted actuarial principles and practices at the request of the Board to assist the sponsors in preparing their financial report for their liabilities associated with the FCERA pension plan. The census and financial information on which our calculations were based was provided by FCERA. That assistance is gratefully acknowledged.

The measurements shown in this actuarial valuation may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; and changes in plan provisions or applicable law.

The actuarial calculations were completed under the supervision of Andy Yeung, ASA, MAAA, FCA, Enrolled Actuary. We are members of the American Academy of Actuaries and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of our knowledge, the information supplied in the actuarial valuation is complete and accurate. Further, in our opinion, the assumptions as approved by the Board are reasonably related to the experience of and expectations for FCERA.

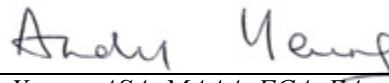

We look forward to reviewing this report with you and to answering any questions.

Sincerely,

Segal Consulting, a Member of The Segal Group, Inc.

By: 

*Paul Angelo, FSA, MAAA, FCA, EA
Senior Vice President and Actuary*

*Andy Yeung, ASA, MAAA, FCA, EA
Vice President and Associate Actuary*

SECTION 1: Valuation Summary for Fresno County Employees' Retirement Association

Purpose

This report has been prepared by Segal Consulting to present certain disclosure information required by Governmental Accounting Standards (GAS) 68 for employer reporting as of June 30, 2015. The results used in preparing this GAS 68 report are comparable to those used in preparing the Governmental Accounting Standards (GAS) 67 report for the plan based on a reporting date and a measurement date as of June 30, 2014. This valuation is based on:

- The benefit provisions of FCERA, as administered by the Board;
- The characteristics of covered active members, terminated vested members, and retired members and beneficiaries as of June 30, 2013, provided by FCERA;
- The assets of the Plan as of June 30, 2014, provided by FCERA;
- Economic assumptions regarding future salary increases and investment earnings; and
- Other actuarial assumptions, regarding employee terminations, retirement, death, etc.

Significant Issues in Valuation Year

The following key findings were the result of this actuarial valuation:

- The Governmental Accounting Standards Board (GASB) approved two new Statements affecting the reporting of pension liabilities for accounting purposes. Statement 67 substantially replaces Statement 25 and is for plan reporting. Statement 68 replaces Statement 27 and is for employer reporting. Statement 67 is effective with the fiscal year ending June 30, 2014 for Plan reporting and Statement 68 is effective with the fiscal year ending June 30, 2015 for employer reporting. The information contained in this valuation is intended to be used (along with other information) in order to comply with Statement 68.
- It is important to note that the new GASB rules only redefine pension liability and expense for financial reporting purposes, and do not apply to contribution amounts for pension funding purposes. Employers and plans can still develop and adopt funding policies under current practices.
- When measuring pension liability GASB uses the same actuarial cost method (Entry Age method) and the same type of discount rate (expected return on assets) as FCERA uses for funding. This means that the Total Pension Liability (TPL) measure for financial reporting shown in this report is determined generally on the same basis as FCERA's Actuarial Accrued Liability (AAL) measure for funding. We note that the same is generally true for the Normal Cost component of the annual plan cost for funding and financial reporting.

SECTION 1: Valuation Summary for Fresno County Employees' Retirement Association

- The Net Pension Liability (NPL) is equal to the difference between the TPL and the Plan's Fiduciary Net Position. The Plan's Fiduciary Net Position is equal to the market value of assets and therefore, the NPL measure is very similar to an Unfunded Actuarial Accrued Liability (UAAL) on a market value basis. The NPL decreased from \$1,350.8 million as of June 30, 2013 to \$878.1 million as of June 30, 2014 primarily as a result of (i) the favorable investment results during 2013/2014, (ii) the gains from lower than expected active salary increases and (iii) lower than expected retiree COLA increases during 2012/2013 (because liabilities for both (ii) and (iii) are rolled forward from June 30, 2013 to June 30, 2014, these gains are first reported in the June 30, 2014 results). Changes in these values during the last two fiscal years ending June 30, 2013 and June 30, 2014 can be found in Exhibit 5.
- For this report, the reporting dates for the employer are June 30, 2015 and June 30, 2014. The NPL was measured as of June 30, 2014 and 2013, respectively, and upon rolling forward the TPL from actuarial valuations as of June 30, 2013 and June 30, 2012, respectively. In addition, we have adjusted the TPL to include \$1.4¹ million and \$9.1² million as of June 30, 2014 and June 30, 2013, respectively, that were set aside by the Retirement Board to pay non-vested Supplemental COLA and Retiree Health Insurance benefits.

The Plan's Fiduciary Net Position (plan assets) was valued as of the measurement dates. Consistent with the provisions of GAS 68, the assets and liabilities measured as of June 30, 2014 and June 30, 2013 are not adjusted or rolled forward to June 30, 2015 and June 30, 2014 reporting dates, respectively.

- The discount rates originally used to determine the TPL and NPL as of June 30, 2014 and 2013 were 7.25% and 7.75%, respectively, following the same assumptions used by FCERA in the pension funding valuations as of June 30, 2013 and June 30, 2012. However, as the Retirement Board had approved a new discount rate of 7.25% (together with other new actuarial assumptions) for use in the pension funding valuation as of June 30, 2013, we have estimated the impact of this assumption change by (1) revaluing the TPL as of June 30, 2012 (before the roll forward) using the new actuarial assumptions and (2) using this revalued TPL in rolling forward the results from June 30, 2012 to June 30, 2013. The detailed calculations used in this derivation can be found in Appendix A of Section 3. Various other information that is required to be disclosed can be found throughout Exhibits 1 through 13 in Section 2.

¹ There was a correction to allocate proceeds from the issuance of Pension Obligation Bonds. After the correction, the balance in the Supplemental COLA Reserve was \$1.4 million and the balance in the Retiree Health Reserve was \$0 (after limiting that balance to be no less than \$0).

² There was a correction to allocate proceeds from the issuance of Pension Obligation Bonds. After the correction, the balance in the Supplemental COLA Reserve was \$2.1 million and the balance in the Retiree Health Reserve was \$7.0 million.

SECTION 1: Valuation Summary for Fresno County Employees' Retirement Association

- The Safety membership class has only one employer (County of Fresno) that was making contributions in 2012/2013 and 2013/2014, so all of the NPLs for Safety as of both June 30, 2013 and June 30, 2014 are allocated to the County.
For General membership, the NPLs as of June 30, 2013 and June 30, 2014 are allocated based on the actual employer contributions within the General membership class made during 2012/2013 and 2013/2014, respectively. The steps we used are as follows:
 - First calculate ratio of employer's contributions to the total contributions for the membership class.
 - This ratio is multiplied by the NPL for the membership class to determine the employer's proportionate share of the NPL for the membership class.

If the employer is in both membership classes, the employer's total allocated NPL is the sum of its allocated NPL from each membership class. Proportionate share of total plan NPL is then the ratio of the employer's total allocated NPL to the total NPL of all employers.

The NPL allocation can be found in Exhibit 7 in Section 2.

SECTION 1: Valuation Summary for Fresno County Employees' Retirement Association

Summary of Key Valuation Results

Reporting Date for Employer under GAS 68	6/30/2015⁽¹⁾	6/30/2014⁽²⁾
Measurement Date for Employer under GAS 68	6/30/2014	6/30/2013
Disclosure elements for fiscal year ending June 30:		
1. Service cost ⁽³⁾	\$107,568,854	\$98,293,207
2. Total Pension Liability	4,928,182,936	4,850,281,953
3. Plan Fiduciary Net Position	4,050,128,933	3,499,451,731
4. Net Pension Liability	878,054,003	1,350,830,222
5. Pension expense	73,360,821	N/A
Schedule of contributions for fiscal year ending June 30:		
6. Actuarially determined contributions	\$165,309,000	\$158,572,420
7. Actual contributions	165,309,000	158,572,420
8. Contribution deficiency (excess) (6) – (7)	0	0
Demographic data for plan year ending June 30:		
9. Number of retired members and beneficiaries	6,570	6,363
10. Number of vested terminated members ⁽⁴⁾	1,380	1,295
11. Number of active members	6,968	6,866
Key assumptions as of June 30:		
12. Investment rate of return	7.25%	7.25%
13. Inflation rate	3.25%	3.25%
14. Projected salary increases ⁽⁵⁾	General: 4.75% to 10.75% and Safety: 5.25% to 10.75%	General: 4.75% to 10.75% and Safety: 5.25% to 10.75%

⁽¹⁾ The reporting date and measurement date for the plan are June 30, 2014.

⁽²⁾ The reporting date and measurement date for the plan are June 30, 2013.

⁽³⁾ Please note that service cost is always based on the previous year's assumptions, meaning the 2014 service cost and 2013 service cost are based on those assumptions shown as of June 30, 2013 (as shown above) and June 30, 2012 (as shown in the table below), respectively.

Key assumptions for Measurement Date:	6/30/2012
Investment rate of return	7.75%
Inflation rate	3.50%
Projected salary increases*	General: 5.00% to 11.00% and Safety: 5.50% to 11.00%

* Includes inflation at 3.50% plus real across-the-board salary increases of 0.50% plus merit and longevity increases

⁽⁴⁾ Includes members who left their contributions on deposit even though they have less than five years of service.

⁽⁵⁾ Includes inflation at 3.25% plus real across-the-board salary increases of 0.50% plus merit and longevity increases.

SECTION 1: Valuation Summary for Fresno County Employees' Retirement Association

Important Information about Actuarial Valuations

In order to prepare an actuarial valuation, Segal Consulting (“Segal”) relies on a number of input items. These include:

- **Plan of benefits** Plan provisions define the rules that will be used to determine benefit payments, and those rules, or the interpretation of them, may change over time. It is important to keep Segal informed with respect to plan provisions and administrative procedures, and to review the plan description in this report (as well as the plan summary included in our funding valuation report) to confirm that Segal has correctly interpreted the plan of benefits.
- **Participant data** An actuarial valuation for a plan is based on data provided to the actuary by FCERA. Segal does not audit such data for completeness or accuracy, other than reviewing it for obvious inconsistencies compared to prior data and other information that appears unreasonable. It is important for Segal to receive the best possible data and to be informed about any known incomplete or inaccurate data.
- **Assets** This valuation is based on the market value of assets as of the valuation date, as provided by FCERA.
- **Actuarial assumptions** In preparing an actuarial valuation, Segal projects the benefits to be paid to existing plan participants for the rest of their lives and the lives of their beneficiaries. This projection requires actuarial assumptions as to the probability of death, disability, withdrawal, and retirement of each participant for each year. In addition, the benefits projected to be paid for each of those events in each future year reflect actuarial assumptions as to salary increases and cost-of-living adjustments. The projected benefits are then discounted to a present value, based on the assumed rate of return that is expected to be achieved on the plan’s assets. There is a reasonable range for each assumption used in the projection and the results may vary materially based on which assumptions are selected. It is important for any user of an actuarial valuation to understand this concept. Actuarial assumptions are periodically reviewed to ensure that future valuations reflect emerging plan experience. While future changes in actuarial assumptions may have a significant impact on the reported results, that does not mean that the previous assumptions were unreasonable.

The user of Segal’s actuarial valuation (or other actuarial calculations) should keep the following in mind:

- The valuation is prepared at the request of the Board to assist the sponsors of the Fund in preparing items related to the pension plan in their financial reports. Segal is not responsible for the use or misuse of its report, particularly by any other party.
- An actuarial valuation is a measurement of the plan’s assets and liabilities at a specific date. Accordingly, except where otherwise noted, Segal did not perform an analysis of the potential range of future financial measures. The actual long-term cost of the plan will be determined by the actual benefits and expenses paid and the actual investment experience of the plan.

SECTION 1: Valuation Summary for Fresno County Employees' Retirement Association

- If FCERA is aware of any event or trend that was not considered in this valuation that may materially change the results of the valuation, Segal should be advised, so that we can evaluate it.
- Segal does not provide investment, legal, accounting, or tax advice. Segal's valuation is based on our understanding of applicable guidance in these areas and of the plan's provisions, but they may be subject to alternative interpretations. The Board should look to their other advisors for expertise in these areas.

As Segal Consulting has no discretionary authority with respect to the management or assets of FCERA, it is not a fiduciary in its capacity as actuaries and consultants with respect to FCERA.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 1

General Information – “Financial Statements”, Note Disclosures and Required Supplementary Information for a Cost-Sharing Pension Plan

Plan Description

Plan administration. The Fresno County Employees' Retirement Association (FCERA) was established by the County of Board of Supervisors on January 1, 1945. FCERA is administered by the Board of Retirement and governed by the County Employees' Retirement Law of 1937 (California Government Code Section 31450 et. seq.) FCERA is a cost-sharing multiple employer define benefit public employee retirement system whose main function is to provide service retirement, disability, death and survivor benefits to the General and Safety members employed by the County of Fresno. FCERA also provides retirement benefits to the employee members of the Superior Court County of Fresno, Clovis Veterans Memorial District, Fresno-Madera Area Agency on Aging and Fresno Mosquito and Vector Control District.

The management of FCERA is vested with the FCERA Board of Retirement. The Board consists of nine members and two alternates. The County Treasurer is elected by the general public and a member of the Board of Retirement by law. Four members are appointed by the Board of Supervisors, one of whom may be a County Supervisor. Two active members are elected by the General members; one active member and one alternate are elected by the Safety members; one retired member and one alternate are elected by the retired members. All members of the Board of Retirement serve terms of three years except for the County Treasurer whose term runs concurrent with her term as County Treasurer.

Plan membership. At June 30, 2014, pension plan membership consisted of the following:

Retired members or beneficiaries currently receiving benefits	6,570
Vested terminated members entitled to but not yet receiving benefits ⁽¹⁾	1,380
Active members	<u>6,968</u>
Total	14,918

⁽¹⁾ Includes terminated members due a refund of member contributions.

Benefits provided. FCERA provides service retirement, disability, death and survivor benefits to eligible employees. All regular full-time employees and permanent part-time employees who work 50% or more for the County of Fresno or the other participating agencies become members of FCERA effective on the first day of the first full pay period after employment in a permanent position. There are separate retirement benefits for General and Safety members. Safety membership is extended to those involved in active law enforcement, fire suppression, and certain probation officers. All other employees are classified as General members. The tiers and their basic provisions are listed below:

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

<u>Tier Name</u>	<u>Governing Code</u>	<u>Effective Date</u>	<u>Basic Provisions</u>	<u>Final Average Salary Period</u>	<u>Plan Sponsors</u>
Pre-Ventura General	§31676.12	Various	2.0% at 57; maximum 3% COLA	Highest 1-year	All
General Tier 1	§31676.14 and the Settlement Agreement	January 1, 2001	2.5% at 55; maximum 3% COLA	Highest 1-year	All
General Tier 2	§31676.16	September 12, 2005	2.0% at 55; maximum 3% COLA	Highest 1-year	County and FMAAA
General Tier 3	§31676.15	December 17, 2007	2.0% at 55; maximum 3% COLA	Highest 3-years	County
General Tier 4	§31676.1	June 11, 2012	2.0% at 61; no COLA	Highest 3-years	County
General Tier 5	§7522.20(a)	January 1, 2013	2.5% at 67; no COLA	Highest 3-years	All
Pre-Ventura Safety	§31664	Various	2.0% at 50; maximum 3% COLA	Highest 1-year	All
Safety Tier 1	§31664 and the Settlement Agreement	January 1, 2001	2.5% at 50; maximum 3% COLA	Highest 1-year	County and NCFPD
Safety Tier 2	§31664.2	September 12, 2005	3.0% at 55; maximum 3% COLA	Highest 1-year	County
Safety Tier 4	§31664	June 11, 2012	2.0% at 50; no COLA	Highest 3-years	County
Safety Tier 5	§7522.25(d)	January 1, 2013	2.7% at 57; no COLA	Highest 3-years	All

*Note: FMAAA – Fresno-Madera Area Agency on Aging
NCFPD – North Central Fire Protection District
NCFPD withdrew active membership from FCERA as of August 31, 2007*

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

Any new member who becomes a member on or after January 1, 2013 is placed into Tier 5 and is subject to the provisions of California Public Employees' Pension Reform Act of 2013 (PEPRA), California Government Code 7522 et seq. and Assembly Bill (AB) 197.

General members enrolled in Tiers 1, 2, 3, or 4 are eligible to retire once they attain the age of 70 regardless of service or at age 50 and have acquired 10 or more years of retirement service credit. A member with 30 years of service is eligible to retire regardless of age. General members enrolled in General Tier 5 are eligible to retire once they have attained the age of 52, and have acquired five years of retirement service credit.

Safety members enrolled in Tiers 1, 2, or 4 are eligible to retire once they attain the age of 70 regardless of service or at age 50 and have acquired 10 or more years of retirement service credit. A member with 20 years of service is eligible to retire regardless of age. Safety members enrolled in Safety Tier 5 are eligible to retire once they have attained the age of 50, and have acquired five years of retirement service credit.

The retirement benefit the member will receive is based upon age at retirement, final average compensation, years of retirement service credit and retirement plan and tier.

For members enrolled in Tier 1, 2, 3, or 4, the maximum monthly retirement allowance is 100% of final compensation. There is no maximum for members enrolled in Tier 5.

The member may elect an unmodified retirement allowance, or choose an optional retirement allowance. The unmodified retirement allowance provides the highest monthly benefit and a 60% continuance to an eligible surviving spouse or domestic partner. An eligible surviving spouse or domestic partner is one married to or registered with the member one year prior to the effective retirement date. Certain surviving spouses or domestic partners may also be eligible if marriage or domestic partnership was at least two years prior to the member's date of death and the surviving spouse or domestic partner has attained age 55 on or prior to the member's date of death. There are four optional retirement allowances the member may choose. Each of the optional retirement allowances requires a reduction in the unmodified retirement allowance in order to allow the member the ability to provide certain benefits to a surviving spouse, domestic partner, or named beneficiary having an insurable interest in the life of the member.

FCERA provides an annual cost-of-living benefit to all retirees in Tier 1, 2, or 3. The cost-of-living adjustment, based upon the Consumer Price Index for the West Region (with 1982-84 as the base period), is capped at 3.0%.

The County of Fresno and the other participating agencies contribute to the retirement plan based upon actuarially determined contribution rates adopted by the Board of Retirement. Employer contribution rates are adopted annually based upon recommendations received from FCERA's actuary after the completion of the annual actuarial valuation. The average employer contribution rate as of June 30, 2014 for 2013-2014 (based on the June 30, 2012 valuation) was 47.19% of compensation.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

Members are required to make contributions to FCERA regardless of the retirement plan or tier in which they are included. The average member contribution rate as of June 30, 2014 for 2013-2014 (based on the June 30, 2012 valuation) was 8.61% of compensation.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 2

Net Pension Liability

Reporting Date for Employer under GAS 68	June 30, 2015	June 30, 2014
Measurement Date for Employer under GAS 68	June 30, 2014	June 30, 2013
The components of the Net Pension Liability are as follows:		
Total Pension Liability	\$4,928,182,936	\$4,850,281,953
Plan Fiduciary Net Position	<u>4,050,128,933</u>	<u>3,499,451,731</u>
Net Pension Liability	\$878,054,003	\$1,350,830,222
Plan Fiduciary Net Position as a percentage of the Total Pension Liability	82.18%	72.15%

The Net Pension Liability (NPL) was measured as of June 30, 2014 and 2013. Plan Fiduciary Net Position (plan assets) was valued as of the measurement date while the Total Pension Liability (TPL) was determined based upon rolling forward the TPL from actuarial valuations as of June 30, 2013 and 2012, respectively.

Actuarial assumptions. The TPL as of June 30, 2014 and June 30, 2013 were determined by actuarial valuations as of June 30, 2013 and June 30, 2012, respectively. The actuarial assumptions used were based on the results of an experience study for the period from July 1, 2009 through June 30, 2012. They are the same assumptions used in the June 30, 2014 funding valuation for FCERA. The assumptions are outlined on page 44 of this report. In particular, the following actuarial assumptions were applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	General: 4.75% to 10.75% and Safety: 5.25% to 10.75%, varying by service, including inflation
Investment rate of return	7.25%, net of pension plan investment expense, including inflation
Administrative expenses	1.10% of payroll allocated to both the employer and member based on the components of the total contribution rate (before expenses) for the employer and member.
Other assumptions	See analysis of actuarial experience during the period July 1, 2009 through June 30, 2012

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 3

Target Asset Allocation

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. Equity	24%	6.10%
Small Cap U.S. Equity	5%	6.88%
Developed International Equity	19%	6.87%
Emerging International Equity	5%	8.22%
U.S. Core Fixed Income	19%	0.63%
TIPS	4%	-0.11%
Emerging Market Debt	3%	3.85%
Real Estate	6%	4.93%
Commodities	4%	3.93%
Hedge Funds	4%	3.46%
Private Equity	7%	12.68%
Total	100%	

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 3 (continued)

Target Asset Allocation

Discount rate: The discount rate used to measure the Total Pension Liability (TPL) was 7.25% as of June 30, 2014 and June 30, 2013. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL as of both June 30, 2014 and June 30, 2013

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 4

Discount Rate Sensitivity

Sensitivity of the June 30, 2014 Net Pension Liability to changes in the discount rate. The following presents the Net Pension Liability (NPL) of the FCERA as of June 30, 2014, which is allocated to all employers, calculated using the discount rate of 7.25%, as well as what the FCERA's NPL would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate. The determination of the NPL by employer is shown later in Exhibit 7.

Net Pension Liability	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
County of Fresno	\$1,447,673,017	\$815,975,668	\$298,009,928

EXHIBIT 5

Schedule of Changes in Net Pension Liability – Last Two Fiscal Years

Reporting Date for Employer under GAS 68	June 30, 2015	June 30, 2014
Measurement Date for Employer under GAS 68	June 30, 2014	June 30, 2013
Total Pension Liability		
1. Service cost	\$107,568,854	\$98,293,207
2. Interest	341,121,326	336,460,778
3. Change of benefit terms	0	0
4. Differences between expected and actual experience	(146,396,595)	(143,645,760)
5. Changes of assumptions	0	265,552,249
6. Benefit payments, including refunds of member contributions	<u>(224,392,602)</u>	<u>(212,956,631)</u>
7. Net change in Total Pension Liability	\$77,900,983	\$343,703,843
8. Total Pension Liability – beginning	<u>4,850,281,953</u>	<u>4,506,578,110</u>
9. Total Pension Liability – ending	<u>\$4,928,182,936</u>	<u>\$4,850,281,953</u>
Plan Fiduciary Net Position		
10. Contributions – employer	\$165,309,213	\$158,572,420
11. Contributions – employee	30,153,934	30,515,683
12. Net investment income	583,148,339	378,483,400
13. Benefit payments, including refunds of member contributions	(224,392,602)	(212,956,631)
14. Administrative expense	(3,541,682)	(3,675,804)
15. Other	<u>0</u>	<u>0</u>
16. Net change in Plan Fiduciary Net Position	\$550,677,202	\$350,939,068
17. Plan Fiduciary Net Position – beginning	<u>3,499,451,731</u>	<u>3,148,512,663</u>
18. Plan Fiduciary Net Position – ending	\$4,050,128,933	\$3,499,451,731
19. Net Pension Liability – ending (9) – (18)	<u>\$878,054,003</u>	<u>\$1,350,830,222</u>
20. Plan Fiduciary Net Position as a percentage of the Total Pension Liability	82.18%	72.15%
21. Covered employee payroll ⁽¹⁾	\$393,248,816	N/A
22. Plan Net Pension Liability as percentage of covered employee payroll	223.28%	N/A

⁽¹⁾ Based on revised total (pensionable and non-pensionable) salaries provided by FCERA subsequent to the issuance of the GAS 67 report. This information is not available for fiscal years prior to June 30, 2014.

Notes to Schedule:

Benefit changes: All members with membership dates on or after January 1, 2013 enter the new tiers created by the California Public Employees' Pension Reform Act of 2013 (PEPRA).

EXHIBIT 6

Schedule of FCERA's Contributions – Last Ten Fiscal Years

Year Ended June 30	Actuarially Determined Contributions⁽¹⁾	Contributions in Relation to the Actuarially Determined Contributions	Contribution Deficiency (Excess)	Covered-Employee Payroll⁽²⁾	Contributions as a Percentage of Covered Employee Payroll
2005	\$56,296,000	\$56,296,000	\$0	N/A	N/A
2006	56,664,000	56,664,000	0	N/A	N/A
2007	69,997,000	69,997,000	0	N/A	N/A
2008	97,305,000	97,305,000	0	N/A	N/A
2009	113,959,000	113,959,000	0	N/A	N/A
2010	126,138,000	126,138,000	0	N/A	N/A
2011	130,290,000	130,290,000	0	N/A	N/A
2012	157,869,000	157,869,000	0	N/A	N/A
2013	158,572,000	158,572,000	0	N/A	N/A
2014	165,309,000	165,309,000	0	\$393,248,816	42.04%

See accompanying notes to this schedule on next page.

⁽¹⁾ All "Actuarially Determined Contributions" through June 30, 2014 were determined as the "Annual Required Contribution" under GAS 25 and 27.

⁽²⁾ Based on revised total (pensionable and non-pensionable) salaries provided by FCERA subsequent to the issuance of the GAS 67 report. This information is not available for fiscal years prior to June 30, 2014.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

Notes to Exhibit 6

Methods and assumptions used to establish "actuarially determined contribution" (ADC) rates:

Valuation date	Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported
Actuarial cost method	Entry Age Actuarial Cost Method
Amortization method	Level percent of payroll (3.75% payroll growth assumed)
Remaining amortization period	
June 30, 2012 valuation (for year ended 2014 ADC)	20 years (declining) for UAAL established as of June 30, 2003 plus 15 years (declining) for UAAL due to actuarial gains or losses, changes in actuarial assumptions or plan amendments ⁽¹⁾ established on each subsequent valuation.
Asset valuation method	The actuarial value of assets is determined by recognizing any difference between the actual and the expected market return over 10 six-month interest crediting periods. The actuarial value of assets is further adjusted, if necessary, to be within 30% of the market value of assets. The valuation value of assets is the actuarial value of assets reduced by the value of the non-valuation reserves. Deferred gains and losses as of June 30, 2011 have been combined and will be recognized in equal amounts over a period of four and a half years from that date.
Actuarial assumptions:	
June 30, 2012 valuation (for year ended 2014 ADC)	
<i>Investment rate of return</i>	7.75%, net of pension plan investment expense, including inflation
<i>Inflation rate</i>	3.50%
<i>Real across-the-board salary increase</i>	0.50%
<i>Administrative expenses</i>	1.10% of payroll allocated to both the employer and member based on the components of the total contribution rate (before expenses) for the employer and member. ⁽²⁾
<i>Projected salary increases</i> ⁽³⁾	General: 5.00% to 11.00% and Safety: 5.50% to 11.00%, varying by service, including inflation
<i>Cost of living adjustments</i>	3.00% of retirement income for General Tiers 1, 2 and 3, and Safety Tiers 1 and 2 0.00% for General Tiers 4 and 5 and Safety Tiers 4 and 5
Other assumptions	All members with membership dates on or after January 1, 2013 enter the Tier 5 created by the California Public Employees' Pension Reform Act of 2013 (CalPEPRA).

⁽¹⁾ Prior to the Board's most recent review of actuarial funding policy in April 2011, a 30-year amortization period was used for plan amendments.

⁽²⁾ This assumption was not added until the June 30, 2014 valuation and would be used to set contribution rates for 2015/2016.

⁽³⁾ Includes inflation at 3.25% plus real across-the-board salary increase of 0.50% plus merit and promotional increases.

Note: Results may not total due to rounding.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 7 (continued)

Determination of Proportionate Share

Notes:

Based on the July 1, 2012 through June 30, 2013 employer contributions as provided by FCERA.

The Net Pension Liability (NPL) for each membership class is the Total Pension Liability (TPL) minus the Plan Fiduciary Net Position (plan assets). The TPL for each membership class is obtained from internal valuation results. The Plan Fiduciary Net Position for each membership class was estimated by adjusting the Valuation Value of Assets (VVA) for each membership class by the ratio of the total FCERA Plan Fiduciary Net Position to total FCERA VVA.

The Safety membership class has only one employer (County of Fresno) that was making contributions in 2012/2013, so all of the NPL for Safety is allocated to the County.

For General, the NPL is allocated based on the actual employer contributions within the General membership class.

- First calculate ratio of employer's contributions to the total contributions for the membership class.
- This ratio is multiplied by the NPL for the membership class to determine the employer's proportionate share of the NPL for the membership class.

If the employer is in both membership classes, the employer's total allocated NPL is the sum of its allocated NPL from each membership class. Proportionate share of total plan NPL is then the ratio of the employer's total allocated NPL to the total NPL of all employers.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

Note: Results may not total due to rounding.

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 7 (continued)

Determination of Proportionate Share

Notes:

Based on the July 1, 2013 through June 30, 2014 employer contributions as provided by FCERA.

The Net Pension Liability (NPL) for each membership class is the Total Pension Liability (TPL) minus the Plan Fiduciary Net Position (plan assets). The TPL for each membership class is obtained from internal valuation results. The Plan Fiduciary Net Position for each membership class was estimated by adjusting the Valuation Value of Assets (VVA) for each membership class by the ratio of the total FCERA Plan Fiduciary Net Position to total FCERA VVA.

The Safety membership class has only one employer (County of Fresno) that was making contributions in 2013/2014, so all of the NPL for Safety is allocated to the County.

For General, the NPL is allocated based on the actual employer contributions within the General membership class.

- First calculate ratio of employer's contributions to the total contributions for the membership class.
- This ratio is multiplied by the NPL for the membership class to determine the employer's proportionate share of the NPL for the membership class.

If the employer is in both membership classes, the employer's total allocated NPL is the sum of its allocated NPL from each membership class. Proportionate share of total plan NPL is then the ratio of the employer's total allocated NPL to the total NPL of all employers.

For purposes of developing the above results, the reporting date for the employer under GAS 68 is June 30, 2015. The reporting date and measurement date for the plan under GAS 67 are assumed to be June 30, 2014. Consistent with the provision of GAS 68, the assets and liabilities measured as of June 30, 2014 and are not adjusted or "rolled forward" to June 30, 2015. Other results, such as the total deferred inflows and outflows would also be allocated based on the same proportionate shares determined above.

The following items are allocated based on the corresponding proportionate share within each membership class:

- 1) Net Pension Liability
- 2) Service cost
- 3) Interest on the Total Pension Liability
- 4) Expensed portion of current-period benefit changes
- 5) Expensed portion of current-period difference between expected and actual experience in the Total Pension Liability
- 6) Member contributions
- 7) Projected earnings on plan investments
- 8) Expensed portion of current-period differences between actual and projected earnings on plan investments
- 9) Administrative expense
- 10) Recognition of beginning of year deferred outflows of resources as pension expense
- 11) Recognition of beginning of year deferred inflows of resources as pension expense

SECTION 2: GAS 68 Information for the Fresno County Employees' Retirement Association

EXHIBIT 9 (continued)

Deferred Outflows of Resources and Deferred Inflows of Resources

There are changes in each employer's proportionate share of the total Net Pension Liability (NPL) during the measurement period ended June 30, 2014. The net effect of the change on the employer's proportionate share of the collective NPL and collective deferred outflows of resources and deferred inflows of resources is recognized over the average of the expected remaining service lives of all employees that are provided with pensions through FCERA which is 4.87 years determined as of June 30, 2013 (the beginning of the measurement period ending June 30, 2014). This is described in Paragraph 33a. of GAS 68.

In addition, the difference between the actual employer contributions and the proportionate share of the employer contributions during the measurement period ended June 30, 2014 is recognized over the same period.

The average of the expected service lives of all employees is determined by:

- Calculating each active employee's expected remaining service life as the present value of \$1 per year of future service at zero percent interest.
- Setting the remaining service life to zero for each nonactive or retired member.
- Dividing the sum of the above amounts by the total number of active employee, nonactive and retired members.

EXHIBIT 13

Allocation of Changes in Total Net Pension Liability

In addition to the amounts shown in Exhibit 12, there are changes in each location's proportionate share of the total Net Pension Liability (NPL) during the measurement period ending on June 30, 2014. The net effect of the change on the location's proportionate share of the collective NPL and collective deferred outflows of resources and deferred inflows of resources is also recognized over the average of the expected remaining service lives of all employees shown above. The difference between the actual employer contributions and the proportionate share of the employer contributions during the measurement period ending on June 30, 2014 is recognized over the same periods. These amounts are shown below. While these amounts are different for each employer, they sum to zero over the entire FCERA.

Increase (Decrease) in Pension Expense Arising from the Recognition of the Effects of the Change in Proportion and Change in Employer and Member Contributions for the Year Ended June 30, 2014

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

Retirement Age and Benefit for Deferred Vested Members:

For deferred vested members, we make the following retirement assumption:

General Age: 58

Safety Age: 55

We assume that 40% of future General and 65% of future Safety deferred vested members will continue to work for a reciprocal employer. For these members, we assume 4.75% and 5.25% compensation increases per annum for General and Safety members, respectively.

Future Benefit Accruals:

1.0 year of service per year.

Annual Leave Conversion:

Eligibility for annual leave plans is determined based on hire date along with other factors. The number of members in each plan used to set the assumptions below can be found on page 48 of our June 30, 2012 Actuarial Experience Study. The following assumptions for service converted from unused annual leave at retirement are used:

New Annual Leave Plan:

40 hours per year of service.

Annual Leave Plan II:

30 hours per year of service.

Vacation/Sick Leave Plans:

35 hours per year of service for General and 40 hours per year of service for Safety.

Annual Leave IV Plan or the Old Annual Leave Plan:

Based on actual hours in a member's frozen time off bank.

Unknown Data for Members:

Same as those exhibited by members with similar known characteristics. If not specified, members are assumed to be male.

Inclusion of Deferred Vested Members:

All deferred vested members are included in the valuation.

Percent Married:

75% of male members; 55% of female members.

Age of Spouse:

Wives are 3 years younger than their husbands.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

Net Investment Return: 7.25%, net of investment expenses.

Administrative Expenses: 1.10% of payroll allocated to both the employer and member based on the components of the total average contribution rate (before expenses) for the employer and member

Employee Contribution Crediting Rate: 3.00%, compounded semi-annually.

Consumer Price Index: Increase of 3.25% per year, retiree COLA increases due to CPI subject to a 3.00% maximum change per year for General Tiers 1, 2 and 3, and Safety Tiers 1 and 2. General and Safety Tiers 4 and 5 receive no COLA increases.

Salary Increases:

Annual Rate of Compensation Increase		
Inflation: 3.25%; an additional 0.50% "across the board" salary increases (other than inflation); plus the following Merit and Longevity increases based on service.		
Service	General	Safety
0	7.00%	7.00%
1	6.00%	6.00%
2	5.50%	5.50%
3	5.00%	5.25%
4	4.00%	4.25%
5	2.25%	3.75%
6	1.50%	3.50%
7	1.25%	3.25%
8 or more	1.00%	1.50%

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

Actuarial Cost Method:

Entry Age Cost Method. Entry Age is the age at the member's hire date. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are based on costs allocated as a level percentage of compensation.

Expected Remaining Service Lives:

The average of the expected service lives of all employees is determined by:

- Calculating each active employee's expected remaining service life as the present value of \$1 per year of future service at zero percent interest.
- Setting the remaining service life to zero for each nonactive or retired member.
- Dividing the sum of the above amounts by the total number of active employee, nonactive and retired members.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX A

**Calculation of Discount Rate as of June 30, 2014
Projection of Pension Plan's Fiduciary Net Position (\$ in millions)**

Year Beginning July 1,	Projected Beginning Plan Fiduciary Net Position (a)	Projected Total Contributions (b)	Projected Benefit Payments (c)	Projected Administrative Expenses (d)	Projected Investment Earnings (e)	Projected Ending Plan Fiduciary Net Position (f) = (a) + (b) - (c) - (d) + (e)
2013	\$3,499	\$195	\$224	\$4	\$583	\$4,050
2014	4,050	215	236	4	293	4,318
2015	4,318	217	250	4	312	4,592
2016	4,592	215	264	4	331	4,870
2017	4,870	208	279	4	350	5,145
2018	5,145	204	294	4	370	5,420
2019	5,420	224	309	5	390	5,720
2020	5,720	196	326	5	410	5,996
2021	5,996	178	342	5	429	6,255
2022	6,255	159	359	5	446	6,495
2038	7,550	28	624	9	525	7,470
2039	7,470	25	633	10	519	7,372
2040	7,372	24	640	10	512	7,257
2041	7,257	22	644	10	503	7,128
2042	7,128	20	647	11	494	6,983
2087	2,334	57	11	57	169	2,492
2088	2,492	59	9	59	180	2,664
2089	2,664	61	7	61	193	2,850
2090	2,850	64	5	64	206	3,052
2091	3,052	66	4	66	221	3,269
2115	16,308	160	0 *	160	1,182	17,491
2116	17,491					
2116	Discounted Value: 13 **					

* Less than \$1 million, when rounded.

** \$17,491 million when discounted with interest at the rate of 7.25% per annum has a value of \$13 million as of June 30, 2013.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX A (continued)

Calculation of Discount Rate as of June 30, 2014 Projection of Pension Plan's Fiduciary Net Position (\$ in millions)

Notes:

- (1) Amounts may not total exactly due to rounding.
- (2) Amounts shown in the year beginning July 1, 2013 row are actual amounts, based on the unaudited financial statements provided by FCERA.
- (3) Years 2023-2037, 2043-2086, and 2092-2114 have been omitted from this table.
- (4) Column (a): Except for the "discounted value" shown for 2116, none of the projected beginning plan fiduciary net position amounts shown have been adjusted for the time value of money.
- (5) Column (b): Projected total contributions include employee and employer normal cost rates applied to closed group projected payroll (based on covered active members as of June 30, 2013), plus employer contributions to the unfunded actuarial accrued liability. Contributions are assumed to occur halfway through the year, on average.
- (6) Column (c): Projected benefit payments have been determined in accordance with paragraph 39 of GASB Statement No. 67, and are based on the closed group of active, inactive vested, retired members, and beneficiaries as of June 30, 2013. The projected benefit payments reflect the cost of living increase assumptions used in the June 30, 2013 valuation report.
- (7) Column (d): Projected administrative expenses are assumed to be 1.10% of projected payroll and are assumed to occur halfway through the year, on average.
- (8) Column (e): Projected investment earnings are based on the assumed investment rate of return of 7.25% per annum and reflect the assumed timing of benefit payments made at the beginning of each month.
- (9) As illustrated in this Exhibit, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments for current Plan members. In other words, there is no projected "cross-over date" when projected benefits are not covered by projected assets. Therefore, the long-term expected rate of return on Plan investments of 7.25% per annum was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2014 shown earlier in this report, pursuant to paragraph 44 of GASB Statement No. 67.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B

GLOSSARY

Definitions of certain terms *as they are used in Statement 68*; the terms may have different meanings in other contexts.

Active employees

Individuals employed at the end of the reporting or measurement period, as applicable.

Actual contributions

Cash contributions recognized as additions to a pension plan's fiduciary net position.

Actuarial present value of projected benefit payments

Projected benefit payments discounted to reflect the expected effects of the time value (present value) of money and the probabilities of payment.

Actuarial valuation

The determination, as of a point in time (the actuarial valuation date), of the service cost, Total Pension Liability, and related actuarial present value of projected benefit payments for pensions performed in conformity with Actuarial Standards of Practice unless otherwise specified by the GASB.

Actuarial valuation date

The date as of which an actuarial valuation is performed.

Actuarially determined contribution

A target or recommended contribution to a defined benefit pension plan for the reporting period, determined in conformity with Actuarial Standards of Practice based on the most recent measurement available when the contribution for the reporting period was adopted.

Ad hoc cost-of-living adjustments (ad hoc COLAs)

Cost-of-living adjustments that require a decision to grant by the authority responsible for making such decisions.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B (continued)

GLOSSARY

Automatic cost-of-living adjustments (automatic COLAs)

Cost-of-living adjustments that occur without a requirement for a decision to grant by a responsible authority, including those for which the amounts are determined by reference to a specified experience factor (such as the earnings experience of the pension plan) or to another variable (such as an increase in the consumer price index).

Closed period

A specific number of years that is counted from one date and declines to zero with the passage of time. For example, if the recognition period initially is five years on a closed basis, four years remain after the first year, three years after the second year, and so forth.

Collective deferred outflows of resources and deferred inflows of resources related to pensions

Deferred outflows of resources and deferred inflows of resources related to pensions arising from certain changes in the collective Net Pension Liability.

Collective Net Pension Liability

The Net Pension Liability for benefits provided through (1) a cost-sharing pension plan or (2) a single-employer or agent pension plan in circumstances in which there is a special funding situation.

Collective pension expense

Pension expense arising from certain changes in the collective Net Pension Liability.

Contributions

Additions to a Pension Plan's Fiduciary Net Position for amounts from employers, nonemployer contributing entities (for example, state government contributions to a local government pension plan), or employees. Contributions can result from cash receipts by the pension plan or from recognition by the pension plan of a receivable from one of these sources.

Cost-of-living adjustments

Postemployment benefit changes intended to adjust benefit payments for the effects of inflation.

Cost-sharing employer

An employer whose employees are provided with pensions through a cost-sharing multiple-employer defined benefit pension plan.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B (continued)

GLOSSARY

Cost-sharing multiple-employer defined benefit pension plan (cost-sharing pension plan)

A multiple-employer defined benefit pension plan in which the pension obligations to the employees of more than one employer are pooled and pension plan assets can be used to pay the benefits of the employees of any employer that provides pensions through the pension plan.

Covered-employee payroll

The payroll of employees that are provided with pensions through the pension plan.

Defined benefit pension plans

Pension plans that are used to provide defined benefit pensions.

Defined benefit pensions

Pensions for which the income or other benefits that the employee will receive at or after separation from employment are defined by the benefit terms. The pensions may be stated as a specified dollar amount or as an amount that is calculated based on one or more factors such as age, years of service, and compensation. (A pension that does not meet the criteria of a defined contribution pension is classified as a defined benefit pension for purposes of Statement 68.)

Defined contribution pension plans

Pension plans that are used to provide defined contribution pensions.

Defined contribution pensions

Pensions having terms that (1) provide an individual account for each employee; (2) define the contributions that an employer is required to make (or the credits that it is required to provide) to an active employee's account for periods in which that employee renders service; and (3) provide that the pensions an employee will receive will depend only on the contributions (or credits) to the employee's account, actual earnings on investments of those contributions (or credits), and the effects of forfeitures of contributions (or credits) made for other employees, as well as pension plan administrative costs, that are allocated to the employee's account.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B (continued)

GLOSSARY

Discount rate

The single rate of return that, when applied to all projected benefit payments, results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected (under the requirements of Statement 68) to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term expected rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Entry age actuarial cost method

A method under which the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis over the earnings or service of the individual between entry age and assumed exit age(s). The portion of this actuarial present value allocated to a valuation year is called the *normal cost*. The portion of this actuarial present value not provided for at a valuation date by the actuarial present value of future normal costs is called the *actuarial accrued liability*.

Inactive employees

Terminated individuals that have accumulated benefits but are not yet receiving them, and retirees or their beneficiaries currently receiving benefits.

Measurement period

The period between the prior and the current measurement dates.

Multiple-employer defined benefit pension plan

A defined benefit pension plan that is used to provide pensions to the employees of more than one employer.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B (continued)

GLOSSARY

Net Pension Liability

The liability of employers and nonemployer contributing entities to employees for benefits provided through a defined benefit pension plan.

Pension plans

Arrangements through which pensions are determined, assets dedicated for pensions are accumulated and managed, and benefits are paid as they come due.

Pensions

Retirement income and, if provided through a pension plan, postemployment benefits other than retirement income (such as death benefits, life insurance, and disability benefits). Pensions do not include postemployment healthcare benefits and termination benefits.

Plan members

Individuals that are covered under the terms of a pension plan. Plan members generally include (1) employees in active service (active plan members) and (2) terminated employees who have accumulated benefits but are not yet receiving them and retirees or their beneficiaries currently receiving benefits (inactive plan members).

Postemployment

The period after employment.

Postemployment benefit changes

Adjustments to the pension of an inactive employee.

Projected benefit payments

All benefits estimated to be payable through the pension plan to current active and inactive employees as a result of their past service and their expected future service.

Public employee retirement system

A special-purpose government that administers one or more pension plans; also may administer other types of employee benefit plans, including postemployment healthcare plans and deferred compensation plans.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B (continued)

GLOSSARY

Pension plans

Arrangements through which pensions are determined, assets dedicated for pensions are accumulated and managed, and benefits are paid as they come due.

Pensions

Retirement income and, if provided through a pension plan, postemployment benefits other than retirement income (such as death benefits, life insurance, and disability benefits). Pensions do not include postemployment healthcare benefits and termination benefits.

Plan members

Individuals that are covered under the terms of a pension plan. Plan members generally include (1) employees in active service (active plan members) and (2) terminated employees who have accumulated benefits but are not yet receiving them and retirees or their beneficiaries currently receiving benefits (inactive plan members).

Postemployment

The period after employment.

Postemployment benefit changes

Adjustments to the pension of an inactive employee.

Postemployment healthcare benefits

Medical, dental, vision, and other health-related benefits paid subsequent to the termination of employment.

Projected benefit payments

All benefits estimated to be payable through the pension plan to current active and inactive employees as a result of their past service and their expected future service.

Public employee retirement system

A special-purpose government that administers one or more pension plans; also may administer other types of employee benefit plans, including postemployment healthcare plans and deferred compensation plans.

SECTION 3: Actuarial Assumptions and Methods and Appendices for the Fresno County Employees' Retirement Association

APPENDIX B (continued)

GLOSSARY

Real rate of return

The rate of return on an investment after adjustment to eliminate inflation.

Service costs

The portions of the actuarial present value of projected benefit payments that are attributed to valuation years.

Termination benefits

Inducements offered by employers to active employees to hasten the termination of services, or payments made in consequence of the early termination of services. Termination benefits include early-retirement incentives, severance benefits, and other termination-related benefits.

Total Pension Liability

The portion of the actuarial present value of projected benefit payments that is attributed to past periods of employee service in conformity with the requirements of Statement 68.

5373400v2/08049.118
