Q: Is the RFQ design to vend out overflow work that the current County maintenance facility cannot handle or is the design of the RFQ to replace the current in-house maintenance department with a private contractor? Can the contractor take over the current County owned maintenance facility and perform the scope of work from this facility with contractor provided employees?

A: We have two in house mechanics that service sheriff office vehicles, so the RFQ is to supplement/enhance the deputies' options when servicing their county home garaged vehicles. Our two bay county facility is not available for a county contractor to use; we are not looking to privatize their positions.
