- Q. I am trying to prepare my bid package but I have a question in regards to the "prevailing wage" portion of the specs. The specs direct me to a website which only assists me (the bidder) in determining what prevailing wages are for this specific scope of work. Our opinion is that it should be up to the County to determine where our technicians fall in regards to wages and benefits. We could make a determination of where we think they fall only to find out that this is not matching County workers in similar job responsibilities.

Can you please make the determination of what classification they fall into or refer us to the department that sets the categories and wages?

- A. The County reviewed the scope of work over the phone with an employee at the Director of Industrial Relations compliance hotline. The DIR shared their opinion that they found the scope of work most related to the category of Carpenter-Millwright.
