

Fresno County Janitorial RFP**Flooring Types**

The numbers below are a **very rough, quickly done estimate** of the % of flooring area that are tile for each building in lots 2-4. These estimates were compiled by County janitorial staff who are not currently responsible for cleaning the buildings in Lot #1, which explains why estimates are not provided for those buildings. (See Exhibit E for more information about those buildings as articulated in the existing Agreements and Contracts.) These numbers are a very general guide only, provided at the request of one or more bidders.
