QUESTIONS AND ANSWERS

Q1. Do the 11 facilities currently have SPCC plans?

A1. The plans are outdated

The Reedley site has been closed and no longer requires a SPCC plan, making the total number of plans needed now ten (10).

Q2. What is the date for each plan (that is, when were the plans last updated or amended)?

A2. 2001

Q3. If so, what consulting firm or agency developed them?

A3. Krazan

Q4. Are native/editable Word and AUTOCAD files available for the winning bidder?

A4. There are no as built.

Q5. Can electronic copies of each plan be provided to the bidders for review and as an aid in developing the level of effort and cost in the proposal?

A5. Sample site maps will be available to the successful bidder

Q6. What is the approximate size (acres) of each facility?

A6. This varies per site.

Q7. How many and what type/capacity of oil storage tanks and systems (i.e., pipelines, loading/unloading racks, electrical transformers, oil water separators, etc.) exist for each facility? Can an inventory of these items for each facility be provided?

A7. There are no loading/unloading racks. Storage tanks are fuel only.

Q8. Have there been any state or federal "notice of violations" cited for any of the facilities with regard to their oil management systems?

A8. No.

Q9. The RFQ states "The successful bidders may be required to furnish a faithful performance bond." Can the County clarify if a performance bond will (definitively) be required?

A9. No bonds will be required.
