INDEPENDENT AUDITORS' REPORT

To the City Council
City of Sanger, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sanger, California (City), as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Sanger's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2010, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The budgetary comparison information and other required supplementary information on pages 51 through 54 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The City has not presented a Management's Discussion and Analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Sanger's basic financial statements. The combining nonmajor fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET ASSETS
JUNE 30, 2010**

Fund balances of governmental funds	\$ 7,160,492
-------------------------------------	--------------

Amounts reported for governmental activities in the statement of net assets are different because:

Long-term notes receivable were not current available resources. Therefore, in the governmental funds balance sheet, they were offset by deferred revenue. In the Government-Wide Statement of Net Assets, deferred revenue was netted against the notes receivable. The following amounts represent the net realizable value of the notes receivable

Notes receivable	(1,004,994)
Deferred revenue	1,004,994

Capital assets used in governmental activities were not current financial resources. Therefore, they were not reported in the Governmental Funds Balance Sheet.

Governmental capital assets	23,595,523
Capital assets of internal service funds	14,086

Internal service funds were used by management to charge the costs of certain activities, such as insurance and fleet management, to individual funds. The assets and liabilities of the Internal service funds were included in governmental activities in the Government-Wide Statement of Net Assets.

450,378

Long-term debt, compensated absences and claims payable from the General long-term Debt Account Group that have not been included in the governmental fund activity:

(4,360,451)

Interest on long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due.

(70,885)

Unamortized issuance costs on revenue bonds payable has not been reported in the governmental funds.

**CITY OF SANGER
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2010**

Amounts Reported for governmental activities in the statement of activities are different because of the items described below:

Net changes in fund balances - total governmental funds	\$ 1,846,986
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	1,763,790
Depreciation expense on capital assets is reported in the government-wide statement and changes in net assets, but it does not require the use of current financial resources. Therefore, depreciation expense is not reported as an expenditure on the fund statements.	
Governmental capital assets	(2,510,757)
Capital assets of internal service funds	(7,683)
Internal service funds were used by management to charge the costs of certain activities, such as insurance and fleet management, to individual funds. The net expenditure of the internal service funds was reported with governmental activities.	(78,920)
Compensated absences reported in the statement of activities that do not require the use of current financial resources are not reported on the fund statements, but are reported as an expense in the government-wide statements.	40,622
Repayment of long-term principal is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the government-wide statement of net assets.	441,163
Accrued interest payable is not reported in the governmental funds.	8,151
Amortization expense on bond issuance costs is reported in the government-wide statement and changes in net assets, but it does not require the use of current financial resources. Therefore, amortization expense is not reported as an expenditure on the fund statements.	(17,355)
Change in net assets of governmental activities	<u>\$ 1,485,997</u>

NOTES TO BASIC FINANCIAL STATEMENTS

CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

(1) Summary of significant accounting policies

A. Reporting Entity

The City of Sanger (City) was incorporated as a general law city and as such draws its authority from the Constitution and laws of the State of California. The City has a council/manager form of government and is governed by a five-member elected council. The City Manager is appointed by the City Council. The City provides the following services: police, community services, street construction and maintenance, planning and zoning, street cleaning, transit, sanitation, and general administrative services.

The accompanying basic financial statements include the financial activities of the City and its component units, the Redevelopment Agency of the City of Sanger (Agency) and the Sanger Public Financing Authority (Authority). Financial information for the City and its component units are accounted for in the accompanying financial statements in accordance with principles defining the governmental reporting entity adopted by the Governmental Accounting Standards Board.

Blended component units - The Agency and the Authority boards are comprised solely of the same individuals who comprise the City Council, and their administrative staff are comprised of City employees. The Agency is reported as a governmental fund and the Authority is blended in with the City's Sewer Fund and is reported as a proprietary fund.

Separate financial statements are produced by the Agency and Authority and may be obtained from the City of Sanger, 1700 7th Street, Sanger, California 93657.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board is the accepted standard setting body for governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

B. Basis of Accounting/Measurement Focus

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

B. Basis of Accounting/Measurement Focus (Continued)

Government-wide and fund financial statements - The City government-wide financial statements include a statement of net assets and a statement of activities and changes in net assets. These statements present summaries of governmental and business-type activities for the City accompanied by a total column.

These statements are presented on an *economic resources* measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets and liabilities, including capital assets, as well as infrastructure assets appraised on June 30, 2006 and acquired after July 1, 2006, and long-term liabilities, are included in the accompanying statement of net assets. The statement of activities presents changes in net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. The types of transactions reported as program revenues for the City are reported in three categories: 1) charges for services, 2) operating grants, and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables and receivables. All internal balances in the statement of net assets have been eliminated. In the statement of activities, interfund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

The City applies all applicable GASB pronouncements (including all NCGA Statements and Interpretations currently in effect) as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) of the committee on Accounting Procedure. In addition, the City applies all applicable FASB Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements to its business-type activities.

Governmental Fund Financial Statements - Governmental fund financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in net assets as presented in these statements to the net assets presented in the government-wide financial statements to explain the differences created by the integrated approach of GASB Statement No 34.

CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

B. Basis of Accounting/Measurement Focus (Continued)

Governmental Fund Financial Statements (Continued)

All governmental funds are accounted for under a spending or *current financial resources* measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on these balance sheets. The statement of revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash during the year or within 60 days after year-end. The primary revenue sources, which have been treated as susceptible to accrual by the City, are property tax, sales tax, intergovernmental revenue and other forms of tax. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The City reports the following major governmental funds:

General Fund - The General Fund is the City's general operating fund. It is used to account for all financial resources except those required to be accounted for in another fund. The primary revenue source is an ad valorem specially assessed tax override. These governmental functions are not financed with bonded indebtedness.

Redevelopment Agency Fund - The Agency consists of three funds used to account for operational, debt service and low and moderate income projects. All funds have been combined for presentation in these financial statements.

Measure S – District Sales Tax - A 3/4 cent District Sales Tax imposed in the City to fund Police, Fire, Paramedic, 9-1-1 Emergency, and Gang/Drug Prevention Services.

Developers Fees Funds – accounts for fees placed on the development of land. Fees are an offset to the future impact that the development will have on either infrastructure.

Proprietary Fund Financial Statements

Proprietary Fund Financial Statements - includes a statement of fund net assets, a statement of revenues, expenses, and changes in fund net assets, and a statement of cash flows for each major proprietary fund and for non-major funds.

The City of Sanger reports the following Proprietary funds:

Water Fund –accounts for the operations related to the City's water delivery system.

Sewer Fund – accounts for financial activity relative to construction, maintenance and repair of the sanitary sewer system.

**CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

B. Basis of Accounting/Measurement Focus (Continued)

Proprietary Fund Financial Statements (Continued)

Disposal Fund - accounts for activities related to refuse collection, street sweeping and City recycling services.

Ambulance Fund - accounts for the operations related to the delivery of emergency medical services and transportation to a hospital.

Enterprise funds are accounted for using the *economic resources* measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or non-current) are included on the statement of fund net assets. The statement of revenues, expenses, and changes in fund net assets presents increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they occur while expenses are recognized in the period in which the liability is incurred.

Operating revenues in the enterprise funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Investments

Under the City's cash management program, cash in excess of operating requirements from all funds is pooled with the purpose of maximizing interest through investment activities, and is deposited in savings accounts or invested in bank certificates of deposit, bank money market accounts and the State of California Local Agency Investment Fund (LAIF). Interest income on pooled investments is allocated on the end of month balance in each fund included in the pools.

For purposes of the statement of cash flows, the City considered all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. All cash and investments of the enterprise funds are pooled with the City's pooled cash and investments.

CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

B. Basis of Accounting/Measurement Focus (Continued)

Receivables and Payables

Activity between funds that represents lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "interfund advances receivable/payable" (i.e. the non-current portion of interfund loans).

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Enterprise fund receivables are shown net of an allowance for uncollectible accounts. All customers are billed monthly. The estimated value of services provided, but unbilled at year-end has been included in the accompanying financial statements.

Property taxes are assessed, collected and allocated by Fresno County throughout the fiscal year according to the following property tax calendar. The property taxes attach as an enforceable lien on property as of January 1st each year, with other dates of significance being:

Levy Date	January 1 st
Due Dates	November 1 st , 1 st installment; February 1 st , 2 nd installment
Delinquent Dates	December 10 th , 1 st installment, April 10 th , 2 nd installment

City property tax revenues are recognized when received in cash except at year-end when available taxes, or those collected within 60 days of fiscal year end, are accrued pursuant to the modified accrual basis of accounting. Revenue from taxpayer-assessed taxes (sales and use, business license, transient occupancy, utility users, gas, and franchise fees) are accrued in the governmental funds when they are both measurable and available. The City considers these revenues available if they are received during the period when settlement of prior fiscal year accounts payable occurs. Historically, the majority of these taxes are received within 60 days of the fiscal year end.

Grant and entitlement revenues are recorded as receivables in the funds when all eligibility requirements have been met. The corresponding governmental fund revenues are recorded in governmental funds when they become available, with the differences recorded as unearned revenue. Enterprise fund revenues are recorded as operating revenues when the receivables are recorded. Some grant and entitlement revenues are not susceptible to accrual, in which case the corresponding revenues are recorded when received.

Restricted Assets

When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the City's policy is to apply restricted net assets first.

**CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

B. Basis of Accounting/Measurement Focus (Continued)

Capital Assets

The City's assets are capitalized at historical cost or estimated historical cost. City policy has set the capitalization threshold for reporting capital assets at \$5,000. The City has chosen not to capitalize infrastructure in place prior to the adoption of GASB 34. Gifts or contributions of capital assets are recorded at fair value when received. Depreciation is recorded on a straight-line basis over the useful lives of the assets as follows:

Vehicles	5 years
Machinery and equipment	5-20 years
Buildings and improvements	15-40 years
Infrastructure	35-50 years

The City defines infrastructure as capital assets that are stationary and have expected useful lives significantly in excess of most capital assets. The assets include the street system, sewer collection and treatment system, park and recreation improvements, storm water conveyance system, and permanent monuments and signage.

Compensated Absences Payable

Vested or accumulated vacation leave that is expected to be liquidated with expendable available resources is reported as an expenditure and related fund liability of the governmental fund responsible for payment. Amounts of vested or accumulated vacation leave and benefits that are not expected to be liquidated with expendable available resources are reported in the non-current portion of the obligations reported in the government-wide statement of net assets with corresponding changes in account balances reported as expenses in the statement of activities. Vested or accumulated enterprise fund vacation leave and benefits are expensed with a corresponding fund liability for these unpaid accrued employee benefits. Vacation pay accruals generally do not exceed the amount earned for one year; however, an employee may accumulate up to a maximum of 320 hours of earned vacation time after which no further vacation accrues to the employee.

Long-Term Obligations

In the government-wide and enterprise fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as costs of issuance, during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

B. Basis of Accounting/Measurement Focus (Continued)

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for a specific purpose.

In the government-wide financial statements, net assets are classified in the following categories:

Invested in capital assets, net of related debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.

Restricted net assets – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets – This resulting category presents the remaining City net assets and this measure of equity is unrestricted, legally or otherwise.

Stewardship (Budget)

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. All annual appropriations lapse at year-end. The budget process is briefly summarized as follows:

- In June, the City Manager submits a proposed operating budget for the fiscal year commencing the following July 1 to the City Council. The operating budget includes proposed expenditures and means of financing them.
- The City Council holds public hearings on the proposed operating budget.
- As near as possible to July 1, the budget is legally enacted through passage of an appropriation resolution.
- Supplemental appropriations during the year may be approved by the City Council.
- The City Manager is authorized to transfer budgeted amounts between departments within any fund; however any change to total expenditures of any fund must be approved by the City Council.

CITY OF SANGER
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

(2) Cash and Investments

The City's investment policy is consistent with guidelines set forth under State of California Government Code Section 53601 and serves to maximize investment income consistent with safe and prudent investment practices. All surplus funds are managed by the Finance Director in compliance with the Statement of Investment Policy adopted by the City Council which delegates to the Finance Director the authority to invest City funds and to deposit securities.

The City follows the practice of pooling cash and investments of all funds. Interest income earned on pooled cash and investments is allocated monthly to the various funds based on the month-end cash and investment balances.

The City's cash, cash equivalents, and investments consist of the following at June 30, 2010:

Deposits	\$ 4,517,732
Petty cash	4,289
LAIF	6,686,081
Cash and cash equivalents	11,208,102
Investments with Fiscal Agents	2,961,058
	<u>\$ 14,169,160</u>

The City's deposits and investments are reflected in the accompanying basic financial statements as follows:

	Governmental Activities	Business Type Activities	Fiduciary Funds	Total

Deposits

The City maintains a cash investment pool that is available for all funds. Each fund type balance in the pool is reflected on the statement of net assets as cash and cash equivalents at June 30, 2010. The carrying amount of the City's deposits was \$4,517,732 and the bank balance was \$4,869,197 which was either insured or collateralized with securities held by the pledging financial institutions in the City's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the City's deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus collateral for cash deposits is considered to be held in the City's name. The market value of the pledged securities must equal at least 110% of a City's deposits. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of a City's total deposits.

Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

The City investments are subject to immediate liquidation, therefore, the City is exposed to interest rate risk if interest rates fall.

Credit Risk

State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSRO's). It is in the City's policy to limit its investments in these investment types to the top rating issued by NRSRO's, including raters Standard & Poor's and Moody's Investors Services.

Compensated absences

The City's policy relating to compensated absences is described in Note 1. As shown in the table of long-term obligations above, the non-current portion of this debt at fiscal year end was \$1,051,328 and \$562,384 for governmental activities and business-type activities respectively. This obligation is expected to be paid in future years from then available resources derived from the respective funds to which the employee services are rendered.

(6) Long-Term Obligations (Continued)

Long-term debt without city commitment

At June 30, 2008 the following Special assessment bonds were payable from the proceeds of the Special Tax levied and collected on all real property within the Special Districts. The City is not obligated to repay the debt in the event of a default and the debt is not recorded in the accompanying financial statements.

- **1998 Community Facility District 1 Refunding Special Assessment Bonds:** In June 1998, the Community Facility District No. 1 Refunding Special Assessment Bonds, Series 1998, were issued for the purpose of refunding the 1991 Special Assessment bonds. The bonds mature annually each October 1, 1999 to 2011, in amounts ranging from \$125,000 to \$230,000. The bonds bear interest ranging from 4.30% to 5.55% and are payable semi-annually each April 1 and October 1.

The bonds and the interest thereon are payable from and secured by a first pledge of the proceeds of the Special Tax to be levied and collected on all real property within the District.

Scheduled interest and principal payments on the Bonds are as follows:

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	215,000	12,295	227,295

(7) Risk Management

The City is exposed to various risks and losses related to torts; theft or, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. Risk of loss is primarily handled through the Central San Joaquin Valley Risk Management Authority (CSJVRMA). CSJVRMA is a consortium of fifty-four (54) cities in the San Joaquin Valley, California. It was established under the provisions of California Government Code Section 6500 et seq. Central San Joaquin Valley Risk Management Authority is governed by a Board of Directors, which meets 3-4 times per year, consisting of one member appointed by each member city. The day-to-day business is handled by a management group employed by CSJVRMA. It is not a component unit of the City.

General liability insurance

Annual deposits are paid by member cities and are adjusted retroactively to cover costs. Each member city has a specific retention level. The City has a retention level of \$50,000 and pays 100% of all losses incurred under \$50,000. The City does not share or pay for losses of other cities under \$50,000. Losses of \$50,000 to \$500,000 are prorated among all participating cities on a payroll basis. Losses in excess of \$500,000 are covered by excess insurance purchased by the participating cities, as a part of the pool, to a limit of \$5 million. This cost is also prorated on a payroll basis.

Workers' compensation

Annual deposits are paid by member cities and are adjusted retroactively to cover costs. Each member city has a specific retention level. The City has a retention level of \$50,000 and pays 100% of all losses incurred under \$50,000. The City does not share or pay for losses of other cities under \$50,000. Losses of \$50,000 to \$500,000 are prorated among all participating cities on a payroll basis. Losses in excess of \$500,000 are covered by excess insurance purchased by the participating cities, as a part of the pool, to a limit of \$5 million. This cost is also prorated on a payroll basis.

Actual surpluses or losses are shared according to a formula developed from overall loss costs and spread to member entities on a percentage basis after a retrospective rating. The following provides a reconciliation of claims and judgments:

(9) Public Employee Retirement System

A. Plan Description

The City contributes to the California Public Employee Retirement System (CalPERS), a cost sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employee's Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

B. Funding Policy

Active plan members in Miscellaneous and Safety Plans are required to contribute 7% for miscellaneous employees and 9% for safety employees of their annual covered salary. The City is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2009/2010 was 13.369% for miscellaneous employees, 163.560% for first tier police employees, 15.067% for second tier police employees, 44.822% for first tier fire employees, and 20.370% for second tier fire employees of annual payroll. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS.

C. Annual Pension Cost

For fiscal year 2009-2010, the City's annual pension cost of \$1,106,994 for CalPERS was equal to the City's required and actual contributions. The required contribution was determined as part of the June 30, 2008, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 7.75% investment rate of return (net of administrative expenses), (b) projected salary increases range from 3.25% to 14.45% for miscellaneous employees, police and fire employees depending on age, service, and type of employment; and (c) 3.25% per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 3.0%. The actuarial value of CalPERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three year period. CalPERS unfunded actuarial accrued liability (or surplus) is being amortized as a level percentage of projected payroll on a closed basis. The amortization period at June 30, 2008 was 15 years for miscellaneous employees, police and fire employees, for prior and current service unfunded liability.

Schedule of Funding Progress – The City's miscellaneous and safety plans became part of the CalPERS Risk Pool for employers with less than 100 active plan members. As part of a cost-sharing multiple-employer defined benefits plan, stand-alone information on the funding progress is not available. CalPERS does not publish the schedule of funding progress for this risk pool in its annual reports but provides the City with such information to be included in these financial statements as required supplementary information.

(10) Deficit Fund Equity

The following funds had a deficit fund balance as of June 30, 2010:

General Fund	\$	(633,545)
Traffic Safety Fund	\$	(4,112)

(11) Commitments and Contingencies

General Liability

There are various claims and legal actions pending against the City for which no provision has been made in the financial statements. In the opinion of the City Attorney and City Management, liabilities arising from these claims and legal actions, if any, will not be material to these financial statements.

Federal Awards and Grants

The City has received federal grants for specific purposes that are subject to review and audit by the federal government. Although such audits could result in expenditure disallowances under grant terms, any required reimbursements are not expected to be material.

CITY OF SANGER
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2010

Budgetary Information

The City uses the following procedures annually to establish the budget data reflected in the budgetary comparison schedules:

1. The City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
2. The City Council reviews the proposed budget at specially scheduled sessions, which are open to the public. The Council also conducts a public hearing on the proposed budget to obtain comments from interested persons.
3. Prior to July 1, the budget is legally adopted through passage of an ordinance. This budget is reported as Original Budget in the budgetary comparison schedules.
4. During the fiscal year, changes to the adopted budget may be authorized, as follows:
 - a. Items requiring City Council action - appropriation of fund balance reserves; transfers of appropriations between funds; appropriation of any non-departmental revenue; new interfund loans or advances; and creation of new capital projects or increases to existing capital projects.
 - b. Items delegated to the City Manager – transfers between departments within funds; appropriation of unbudgeted departmental revenues; and approval of transfers which increase salary and benefit appropriations.
 - c. Items delegated to department heads – allocation of departmental appropriations to line item level.
5. Formal budgetary integration is employed as a management tool for all funds. Annual budgets are legally adopted and amended as required for the general, special revenue and enterprise funds. Project length budgets are adopted for the capital projects funds. All budgets are prepared on a basis consistent with generally accepted accounting principles (GAAP), and budgetary comparisons for the information. A debt service payment schedule for the debt service funds is also approved as part of the budget process.
6. Budget amounts are reflected after all authorized amendments and revisions. This budget is reported as the Final Budget in the budgetary comparison schedules.
7. For each legally adopted operating budget, expenditures may not exceed budgeted appropriations at the activity level. The legal appropriation basis is at the level called "department." A "department" for legal appropriation purposes may be a single organization, or an entire department having multiple organizations within the same fund, or an entire fund.
