

Fresno County MHP CAEQRO Report

Fiscal Year 2011-12

PENETRATION RATES AND APPROVED CLAIM DOLLARS PER BENEFICIARY

The penetration rate is calculated by dividing the number of unduplicated beneficiaries served by the monthly average eligible count. The average approved claims per beneficiary served per year is calculated by dividing the total annual dollar amount of Medi-Cal approved claims by the unduplicated number of Medi-Cal beneficiaries served per year. Rankings, where included, are based upon 56 MHPs, where number 1 indicates the highest rate or dollar figure and number 56 indicates the lowest rate or dollar figure.

Figure 7 displays key elements from the approved claims reports for the MHP, MHPs of similar size (large, medium, small, or small-rural), and the state.

Footnotes:

- 1 - Includes approved claims data on MHP eligible beneficiaries who were served by other MHPs, based on Medi-Cal recipient's "County of Fiscal Responsibility"
- 2 - Includes Short-Day/Medi-Cal (SD/MC) and Inpatient Consolidation (IPC) approved claims for those whose aid codes were eligible for SD/MC program funding

- 3 - The most recent data processing dates for SD/MC and IPC approved claims and MEDS Monthly Extract File (MMEF) respectively by DMH for the reported calendar year
- 4 - County total number of yearly unduplicated Medi-Cal eligibles is 301,175
- 5 - Beginning with CY10 data, CAEQRO made the following Service Category Changes:
 - "24 Hours Services" is no longer a unique service category. The components of "24 Hours Services" are reported as "Inpatient Services" or "Residential Services"
 - "23 Hours Services" has been relabeled "Crisis Stabilization", which includes Urgent Care
 - "Linkage/Brokerage" has been relabeled "Case Management"
 - "Outpatient Services" is no longer a unique service category. The components of "Outpatient Services" are reported as "Mental Health Serv." or "Crisis Intervention"
