- NOTES: 1. FM = Family Maintenance; PP = Permanency Planning; ST = Supportive Transition; FR = Family Reunification
2. Numbers represent all cases with children that were open for at least one day in 2013.
3. The identified service component (voluntary/court ordered) represents the component status upon case closure or the end of the year. It is possible that the component changed during the time period the case was open.
4. Non-English needs may be under identified as many participants who may be at least minimally competent in English and can "get by" without a translator are ultimately identified as English language speakers.
