If it is later determined that the Bidder failed to disclose required information, any contract awarded to such Bidder may be immediately voided and terminated for material failure to comply with the terms and conditions of the award.

RESPONSIBILITY MATTERS--PRIMARY COVERED TRANSACTIONS****INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms covered transaction, debarred, suspended, ineligible, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

SCOPE OF WORK

The County of Fresno on behalf of the Department of Public Health, together with other County designated covered component departments and programs, is requesting proposals from qualified vendors to provide web-based training services to County employees. The content of the training will serve as the core training for privacy and security compliance knowledge that is required by the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and the Health Information Technology Economics and Clinical Health Act of 2009 (HITECH Act).

The training should emphasize the HIPAA Privacy Rule specific to the confidentiality of protected health information (PHI) in medical and behavioral health care settings and health care employees' required compliance with maintaining client confidentiality. The training shall also include information technology (IT) security information appropriate for the end user and shall include information on the privacy and security of electronic protected health information (ePHI).

In addition to content specific to HIPAA and HITECH, the training should include information about other laws and regulations that pertain to the privacy of health care information that the Departments of Public Health and Behavioral Health are subject to.

The County is seeking a training that includes both a comprehensive initial training to be given to employees upon hire and an abbreviated training to be given to employees annually thereafter.

BACKGROUND:

The County of Fresno was designated a hybrid entity for HIPAA purposes by the Fresno County Board of Supervisors in October 2002 and within the designated hybrid entity are the HIPAA covered component departments and programs. The County provides a broad range of services to a culturally diverse community and provides public health, mental health, and substance abuse services to county residents in several types of service environments including clinics, group, and home visitation settings. These services are provided by the County's Department of Public Health and Department of Behavioral Health, who make up the majority of covered entity staff and are required to HIPAA trained.

The County also provides operational support services to its Public Health and Behavioral Health departments through various other covered entity County departments and programs such as the Auditor-Controller's Audits and General Accounting Divisions, the County Clerk's Records Management Unit, and the Internal Services Department.

County policy requires that each of the covered component departments or programs must provide HIPAA training to its employees within forty-five (45) days of the start of employment and at least annually thereafter. The County typically trains 2,000 to 2,300 full-time, part-time, contracted, student and intern employees annually, but has trained as many as 3,500 annually in the past. The number of employees trained each year is dependent upon several factors including staff turnover and attrition; therefore, the County will not guarantee a minimum level of usage.

OBJECTIVE:

The objective of the County is to provide our covered entity employees with comprehensive and engaging privacy and security training that is up-to-date and will increase their knowledge and compliance with HIPAA, HITECH, and other privacy laws.

Specific training objectives and outcomes are that employees will:

1. Develop a greater understanding of HIPAA and other privacy regulations.
2. Understand the rights of our patients/clients.
3. Be able to identify what constitutes PHI.
4. Understand what the “minimum necessary” standard is.
5. Understand what PHI can be used or disclosed, who can use it, and to whom it can be disclosed.
6. Understand the ways in which PHI can be used specific to public health activities (what constitutes public health activities).
7. Understand the ways in which PHI can be used specific to emergency preparedness, planning, and response operations.
8. Understand additional confidentiality requirements when dealing with PHI specific to HIV/AIDS and other communicable diseases, mental health, substance abuse, and other extremely sensitive health information that is protected by California or federal law.
9. Understand how to apply HIPAA and privacy regulation requirements in their daily routines and responsibilities.
10. Develop an understanding that covered entities and individuals can be subject to internal sanctions and civil and criminal penalties for failure to comply and what the consequences of non-compliance are to the client, the County, and to the employee (including licensed employees).
11. Understand their responsibility to report to a supervisor or manager if they suspect a privacy or security incident or breach has occurred.
12. Understand their responsibilities as supervisors and managers to monitor HIPAA compliance of their staff, report suspected privacy or security incidents or breaches to the Privacy Officer and/or Security Officer (or designees) immediately, and to assist the Privacy Officer and/or Security Officer (or designees) in the investigation of the incident or breach.
13. Understand the County process of incident investigation, state and federal reporting, and client notification in the case of a breach.
14. Be reminded that the County of Fresno has HIPAA Management Directives that they must be familiar with and abide by.
15. Understand business associate relationships.

The vendor shall include a “Vendor Proposal” section with their proposal This section shall include a detailed description of how their product will meet or fulfill the “Training Design” and “Miscellaneous” criteria listed below.

Training Design:

1. The training must comply with the requirements of HIPAA Privacy and Security (45 CFR, Parts 160 and 164) law.

2. The vendor must ensure that the training program remains legally accurate. The vendor must continuously monitor the law throughout the duration of the contract. If the law changes in a way that would necessitate a change in training content, the vendor will update the training appropriately and will provide access to the updated training to the County of Fresno at no additional charge. The updated training will be provided within thirty (30) days of the effective date of the change in law.
3. If a County program changes in a way that would necessitate a change in training content after the initial final training has been approved and made available for use by the County, the vendor will update the training per County's specifications. The County requested change should be completed within thirty (30) days of request by County.
4. The training must be designed and delivered in a manner such that learners cannot advance through screens or modules without gaining knowledge. The training must be structured in a way that requires employees to complete every page of the instruction. That is, employees will not be able to skip through the material, but will have to be exposed to all instruction. Employees who have not completed every page of instruction will not be able to enter the end-of-training assessment which will be required for a participant to be certified as having completed the training.
5. The training must focus on behavior. The instruction must follow these important principles:
 - A. Instead of providing a simplistic list of "do(s) and don't(s)", the training program should focus on exploring the nuances of "gray area" situations.
 - B. Instruction should be legally accurate, but written in practical easy-to-understand terms. Rather than relying on legal terminology, instruction should:
 - i. distill statutes, cases, and regulations into clear behavioral principles;
 - ii. teach employees those principles; and
 - iii. require employees to apply those principles to real-life scenarios (specific to behavioral health and public health preferred) that they may encounter in the workplace.
 - C. The training should be highly interactive and include numerous engaging exercises that help employees explore the nuances of the law. Examples should be realistic and structured around complicated work scenarios.
6. The training must include a way to ensure that all employees have learned the material by utilizing a post-test assessment that requires a minimum passing score of 70%.
7. The training must provide an easy to use report function and the report(s) must be in a format that will allow the County to maintain a record of employee training details.
 - A. At a minimum, the reports must:
 - i. Have the ability to track employees' progress and status of having completed or not completed the training.
 - ii. Be available to specified County supervisors and administrators and must include employees' names and identification numbers, departments, supervisors, date and time of training completion, and post-test assessment score.
 - iii. Include staff that did not achieve a score of 70% or better on the post-test assessment.

- iv. Have the option of allowing differing layers of administrative control and access to the training records at County's discretion.
- 8. The training must accommodate retraining on an individual basis as needed.
- 9. The training must be interactive and include audio-visual scenarios to engage learners. Text only courses will not be sufficient.
- 10. The training must be easy to navigate by using a mouse to click on a simple set of buttons (e.g., forward, back, replay). The training should also provide a navigation help feature that describes how to move about in the training.
- 11. The training must provide the ability for the employee to start, stop, and come back to the training later for completion. With this feature, employees need not complete the training in one sitting; if they exit the training, their place must be saved. When they return to the training, they must be returned to the section where they left off.
- 12. The training must provide audio instruction and all audio must also be provided in text form. In order to accommodate multiple learning styles and to make the training as engaging as possible, it must contain extensive audio, both narration and within scenarios. All words spoken in the training must also be available as text (closed captioning). The training must not be written at a higher than a high school reading level.
- 13. There should be additional information in the training that covers the roles and responsibilities of supervisors and managers with regard to HIPAA compliance and reporting of incidents. This could be accomplished by offering an extra module of the training that only County identified supervisors and managers would have to complete.
- 14. The initial comprehensive training should require the average employee no more than three (3) hours to complete and the abbreviated training should require no more than forty-five (45) minutes to complete.

Miscellaneous:

Compliance requirements for HIPAA, HITECH, and other healthcare privacy and security laws are constantly evolving and the County is required to stay abreast of those changes in order to appropriately safeguard PHI and to reduce adverse impacts to our clients and to the County. The requirements listed below will help the County ensure consistency in meeting training objectives.

- 1. The training must be web-based.
- 2. The vendor/training developer must be an expert with demonstrated knowledge, expertise, and experience in HIPAA Privacy and Security.
- 3. The training is updated at least annually throughout the term of the agreement to reflect any changes in HIPAA, HITECH, or other privacy or security law.
- 4. Both the comprehensive and abbreviated trainings must be consistently available to the County in order to train new employees as they are hired throughout the year and then on an annual basis thereafter.
- 5. The training should be delivered and fully operational within thirty (30) days of a contract being signed and all necessary input provided to the vendor by the County.

6. Vendor must provide support to key administrative staff as identified by the County. The vendor will be required to respond to designated key staff within one (1) business day. The County and vendor will mutually agree on a timeframe for any training fixes requiring greater than one (1) business day for resolution.
7. Vendors must provide a link to the training product for review by County staff by the day following the deadline for submitting proposals. The training product must be available for viewing for a minimum of two (2) weeks, at no cost to the County.
8. The training should be customized for the County of Fresno by use of the County Seal and by including instruction in the training specific to the County's HIPAA Management Directives and specific incident and breach reporting procedures, at the County's discretion.
