

What are Opioids?

Opioids are a class of drug commonly used to treat pain by medical professionals. However, opioids are often used and manufactured illegally due to their potency.

Illicit "street opioids" can contain dangerous doses of powerful drugs and place people at a higher risk for **OVERDOSE OR DEATH**.

The Force of Fentanyl

Fentanyl is an opioid that is 50 to 100 times stronger than morphine. When drugs are manufactured illegally, fentanyl is often disguised or laced in other illicit drugs, including...

- Xanax
- Percocet
- Cocaine
- Heroin
- Meth

One dose—one pill—can be fatal, whether you know it's there or not.

OVERDOSES FROM OPIOIDS

ARE ON THE

RISE

Overdoses can happen
in less than a minute.

NALOXONE CAN REVERSE IT!

What You Need to Know

Fentanyl Deaths

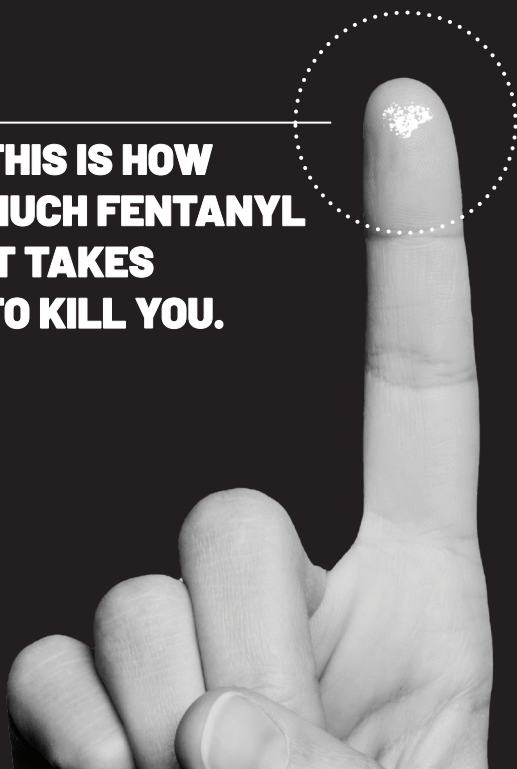

2020	_____	40
2019	_____	10

An overdose can happen in just a **few seconds**.

Fentanyl Can Go By...

- China Girl
- Dance Fever
- Fake Oxy
- TNT
- Tango & Cash

**THIS IS HOW
MUCH FENTANYL
IT TAKES
TO KILL YOU.**

Be There, Be Aware

SIGNS OF AN OVERDOSE:

- Breathing slows or stops
- Dizziness
- Drowsiness
- Loss of consciousness
- Disorientation
- Clammy skin
- Changes in pupil size
- Nausea or vomiting

If you encounter someone that is suspected of overdose, **immediately call 911.**

Overdose Treatment

If someone you know uses opioids, consider carrying Naloxone. It can be lifesaving.

Naloxone is an FDA approved drug that can reverse the effects of an opioid overdose.

Due to the potency of "street fentanyl," Naloxone may not be effective or may only work for a short period of time.

Get **FREE** Naloxone today:

**Community Regional Medical Center
Emergency Department
2823 Fresno Street
Fresno, CA 93721**

**Fresno County Department of
Public Health
1221 Fulton Street, Fresno, CA 93721**

**Fresno/San Joaquin Needle Exchange
(prescription only)
559-412-6226**

**Parents & Addicts In Need (PAIN)
559-579-1551 www.gotpainusa.org**

Naloxone is also available at most pharmacies, without a prescription, for around **\$24 to \$50** — a small price to pay to save a loved one's life.
